NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

We have had several people talk to us about the need for a summer program for the youth of Hamlin since our column last week. But while we know there is a great need for such a program we doubt if we are much closer to doing something about it than we were three years ago when we first mentioned such a program in this column.

It seems to be another one of those situations where everyone is in favor but no one seems to know where to start.

To ever have anything we must either get some existing organization interested or form a new organization. We would much prefer to go through an existing organization if possible but would welcome a new organization if it meant the difference between a good program or none at all.

We know that the following suggestion will upset a few people because anyone who has worked over the years building up an organization will just about fight you before they will stand by and see someone else tamper with their efforts.

But we believe that a good start this year toward a better program would be to unite all summer baseball programs under one organization. We have a well financed and well organized Little League program and then when the boys out grow this we are lucky if we even have a program for them.

If it were not for a few dedicated managers this is where our whole program would end. In fact, if something isn't done pretty soon this program may end in spite of this dedicated effort of a few because of the lack of money.

The concessions and donations at these games just about pay for the lights but then there is the bill for getting the lights ready for the season which was about \$100 and then there is the equipment bill.

We do not want to do anything that will hurt the Little League but believe that they have just about caught up to the point that they could expand upward. We can see no real need to start a whole new organization just to take care of senior league baseball—

Over the long run this is not the real answer to a summer program because it is not broad enough but it would help some now.

It is not broad enough because the Little League program, with all of its money raising efforts, just does not cover enough kids for a long enough period.

A program that is over by the first of July can not really be called a summer program and one that does not include something for girls can not offer just a whole lot in the way of a general program. We badly need more than this and if the Little League must suffer a little to have more then we would favor it suffering just a little.

Last week we suggested that this summer recreational program would be a good program for the Lions Club to undertake—well to my surprise they did not rush down to get something started so we thought we would toss out the name of another organization that might be interested.

This would be the Booster Club. At the present time they are spending more than they are taking in on a scholarship program and although we value this very highly we feel if all else fails it would be better to have a program that benefits all of the kids in town over one that just helps one a year. We want both but want a summer program the most.

We suspect that a good summer program would do more to help the Pied Piper athletic program than any other one thing that the Booster Club could do.

As you can probably tell by now we do not really care who sponsors such a program we just want to see one started one way or another.

Four Divisions Being Planned For Jaycee-ette Beauty Pageant

Girls ages three through 19 are all invited to enter the 1970 Jaycee-ette Summer Festival to be held June 27 at the Hamlin Piper Stadium.

The beauty pageant this year will be in four divisions, two more than in previous years. Mrs. Jerry Smith, general chairman, says the other divisions were added in order to include more girls.

The following chairmen may be contacted for entering the various divisions: Mrs. John Edd Scott, ages three through second grade (in the fall); Mrs. Young Bill Maddox, third grade through fifth; Mrs. Dan Gallagher, sixth grade through eighth; Mrs. Sam Mack Hodges, freshman age through 19 years.

In addition to the division leaders, Mrs. Smith and Mrs. Harvey Lawlis or any Jaycee-ette member may be contacted to enter.

Anyone who wishes to sponsor a girl will be eligible to sponsor one girl in each of the four divisions. Sponsorships are \$2 for each girl. Sponsors may contact Mrs. Smith.

The beauty contestants will be honored at a Coke party given by their respective leaders. The first and second divisions will be honored on Thursday June 25 and the other two parties will be held on Friday, June 26. Some rehearsal will be done at the parties but full rehearsal is set for the morning of the Festival.

The first division party will be from 2 to 3 p. m. and the second division from 3:30 to 4:30 p. m.

The June 26 parties will be from 4 to 5 p. m. for the third division and from 5:30 to 6:30 p. m. for the fourth division.

DECORATING MADE EASY

By Richard Butler

Can you readily describe the "mood" of your home? I mean the room-by-room feeling that each room gives you when you enter it.

Room mood seldom is achieved spontaneously. It results from careful planning—knowing your family's preferences, studying the various elements of "atmosphere," incorporating those that suit you into your home.

Color is the major factor in establishing mood. That does not mean that each room should be a different color. I think the best home decor involves no more than two or three colors.

When color ties a house together, the style of the house can change with each room. And style change is important, because a home must provide many worlds within its boundaries.

Let's decorate a hypothetical house where the owners like the colors gold and green.

The living room wants a formal, elegant look, so we'll paint the walls white for an open, spacious feeling. The carpeting and draperies will be gold. The major furniture pieces will be gold or green, including some covered in a pattern combining the two.

The den is meant to have a more intimate and casual feeling. Here, we'll use deeper shades that provide a stronger, less formal contrast. The carpet and walls will be a dark gold. The windows and the major upholstered pieces will be covered with a plaid or print that combines gold with green.

For the quiet master bedroom, we'll use a patterned wallpaper that has medium gold colors. The carpeting and the draperies may be the same gold or a medium green. The bedspreads may be gold or green.

Let's further suppose that the living room is furnished with formal, contemporary pieces; the den in informal American Colonial, and the bedroom in Italian provincial.

As dissimilar as the furniture styles are, they will blend beautifully, because color brings them continuity.

Favorite Desserts

Pudding, according to a new consumer survey, is the second favorite dessert in the country.

What's the first? It depends on whom you ask. Children will go for ice cream as their first choice; husbands will take pie or cake. But they all select creamy pudding as the close runner-up.

Pudding Pleases All

The homemaker desiring to please all of her family will want to make pudding a frequent mealtime offering. With some of the new puddings now available, you can make creamy pudding desserts in favorite ice cream and cake flavors.

Think of the dessert pleasure that a luscious banana cream or Bavarian cream pie can bring. They are easy to make with a new line of My-T-Fine puddings and pie fillings just reaching your supermarket. If there's no time for making a crust, simply serve banana cream, Bavarian cream, or butter pecan pudding topped with whipped cream. Or serve fudgier, chocolate fudge pudding, made with rich Dutch chocolate flavor. For a pretty dessert, layer cooled pudding in parfait glasses in alternating flavors, or alternate layers of pudding with layers of whipped cream. Or pour warm pudding over plain cake or lady fingers and top with pretty fruit for a quick company dessert.

FORTY-FIVE YEARS AGO
(June 19, 1925)

The City Park was the scene of a most delightful evening Tuesday. The Hamlin Band delivered their weekly concert from seventy-three to eighty-three and then Mr. S. M. Gloyd, of Oklahoma City, president of the Texas Cement Plaster Company delivered an address on his recent "round the world" trip. Mr. Gloyd is just back, and this is his second time "around" and also his second address before a Hamlin audience. Mr. Gloyd is one of those plain earnest kind of fellows who appreciate the opportunity of seeing the world and then telling about it to his friends. He is a West Texas product having ridden the mesquite as a cowboy in the early days. He has prospered in everything he has attempted, whether it was in the cattle business or the manufacturing of cement plaster. He is president of one of the largest plaster cement producing companies in the whole nation. Every time he comes to the big plant at Plasterco, he brings a message that does every employee good.

For several weeks there has been under construction at the South end of Central Avenue one of the most attractive and up-to-the-minute filling stations in this part of the country. It is a combination affair. Two gas stands modernly operated, a good sized store room for accessories and for groceries and cold drinks, and still that's not all. Up in the second story are rooms for the people to live in who operate the plant. Electric lights and city water complete the station proper. Near by are ample camping grounds for the traveler, who enjoys all that a modern station can furnish, lights, water, air, groceries and auto accessories.

This plant is owned by Dr. L. P. McCrary, but the operators and owners of the stock are B. E. Sparks & Sons. Grandpa Sparks and his son Leslie will be the "power behind the counter" and these "boys" are turning on the current and yelling "come on," right now.

For the benefit of those readers who live a long ways off, we want to make it clear that this modern filling station is right where the Central Avenue stops, jam up against the California "River," right where you can go either of three ways, to Sweetwater, to Anson, or to Merkel south. Sparks & Sons will be the first to welcome visitors in down there and the last to say good-by.

TWENTY YEARS AGO
(June 16, 1950)

Friday will find gala throngs in attendance at the formal opening of Crow Brothers new and enlarged grocery in Hamlin.

Under the management of D.

D. (Slim) Crow and J. E. (Evert) Crow, the local establishment had far outgrown the original business structure occupied by the firm. Early in the Spring a contract was let for erection of an addition to the original structure and remodeling to Harde-man & Pittman, local contractors.

Outgrowth of the contract is a modern grocery establishment in which are featured hardwood floors, indirect lighting and central heating and air conditioning. Interior of the store has tastefully painted plaster walls with display racks which provide easy access to products displayed. A part of the original display racks were used in outfitting the new store and these were supplemented with a number of racks which were built by J. E. Crow, Jr., an employee of the firm.

The sales portion of the store is fitted with 15 fluorescent dome type lighting fixtures which are the latest type obtainable for commercial illumination.

New Hussmann vegetable and meat cases have been added and conveniently arranged along the walls of the store.

A Tyler dairy case is exclusively used for storage and handling of milk and cream and other dairy products. In addition, the firm has provided a Hussmann open top refrigerated case for display of cheeses and smoked meats.

F. M. (Pistol) Crow is also employed by the firm of Crow Bros.

Many special events have been planned for the celebration of the completion of the structure and representatives of distributors of nationally advertised food lines are to assist the regular store personnel.

TEN YEARS AGO
(June 16, 1960)

Van Newberry won the Jaycee Junior Golf Tournament here Saturday with a low score of 79 for 18 holes. Newberry, the son of Mr. and Mrs. B. V. Newberry, was also high man in the 13, 14 and 15 year old group.

Randy Brown was winner in the 16, 17 and 18 year old flight, with a low score of 85. Jimmy Shivers was runner-up.

Mark Smith was second in the tourney and second in the 13, 14 and 15 year old class with a low of 83. He will go with Newberry and Brown to Sweetwater Saturday to represent the Hamlin Jaycees in the Regional Jaycee Golf Tourney.

John Poe, 11, won first in the class 12 and under with 105. Gary Smith, 8, was runner-up with 108 for the 18 holes.

Mrs. Mattie Richardson of Arlington is visiting her son and his family, Mr. and Mrs. Cecil Richardson, and her brother, Lee Money, and other relatives in Hamlin. She plans to spend a few weeks here.

Neinda Philosopher Says Despite the Shape The World's In, Most People Seem to Like It

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One takes an optimistic view of things this week, more or less. Dear editor:

Some people are saying the world was never in as bad a shape as it is now, but as I sit out here on this Johnson grass farm and examine it through the newspapers I wonder about that.

For example, take the astronauts. No sooner do they get a good look at what's outside the world out there in forlorn space and get safely back than they take a desk job in Washington or run for some office, here on the good earth.

Things have a way of balancing out. Take the colleges. According to an article I read last night, over 300 college presidencies are vacant, just not enough capable men willing to take on the job, even with combat pay. Yet what happens? College riots shut down about that many universities and so, what's the problem?

Or take government employees. For years they dreaded to see Washington's birthday for example fall on Saturday or Sunday, thus

knocking them out of what otherwise would have been an extra holiday.

So what happens? They convince Congress it's the holiday, not the birthday, that counts, so now if the birthday falls on Saturday they get Friday off; if on Sunday, they get Monday off. I don't care what the problem is, if a man thinks long and hard enough, there's a solution, although I don't know what would have happened if Washington and Lincoln had been born on the same day of the month, or if Columbus had arrived here on Christmas. I presume however that Washington has a commission drawing up emergency plans in the event some future holiday-worthy hero gets born on an established holiday.

Sports Editor

Barry Cheshire, a junior journalism major from Hamlin, has been named sports editor for the North Texas State University's student newspaper, The North Texas Daily's "weekly summer edition."

HAD VISITORS? That's news, call the HERALD.

The problem wouldn't come up however if they'd put me in charge of declaring holidays. I declare one whenever I feel like it, having no patience with a man who waits till Congress tells him when to go fishing. What does Congress know about when the fish are biting?

Yours faithfully,
J. A.

On Honor Roll

Jerry Lynn Elliott was among 349 students in the school of science named to the dean's honor roll at the University of Texas at Arlington. A "B" average must be maintained to be eligible for the honor roll.

Jerry is the daughter of Mr. and Mrs. Joe Hall.

Dr. and Mrs. Seth Adams Jr. and children, Allison, 15, Greg, 12, and Seth III, 6, visited his parents Mr. and Mrs. Seth Adams several days last week. Dr. Adams is associate professor of biology at Western State College in Gunnison, Colo. He has been teaching there two years. The family will return to Colorado before the second summer session.

DESTINATION?

Postal employees do their best to interpret accurately the addresses written on our mail. However, some are so hastily written, and so poorly addressed that they may never reach their intended destination. A good many people go hastily through life, not realizing that they are headed in the wrong direction. The church points the way to salvation and desires that all should choose the way of our Lord and Saviour.

TAKE TIME FOR THE LORD
ATTEND CHURCH

EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

DISCUSS PENAL CODE—State Representative Frank Calhoun of Abilene (left) and Joyce Cox, chairman of the Governor's Conference on Criminal Justice in Texas (center) discuss revision of the state penal code with House Speaker G. F. (Gus) Mutscher (seated).

House Speaker Names Frank Calhoun to Liaison Committee

AUSTIN — Texas House Speaker G. F. (Gus) Mutscher has named Representative Frank Calhoun of Abilene one of five House members to serve as liaison between the House of Representatives and the Governor's Conference on Criminal Justice in the State of Texas.

Mutscher's announcement followed a weekend meeting of the Conference attended by the five House members.

The Conference is coordinating with the Texas Bar Association in a revision of the state penal code.

Mutscher, an advocate of penal code reform, said the House members he appointed will work with the Conference in anticipation of the presentation of the revised penal code to the 62nd Legislature.

Mutscher said Calhoun, who has served as a member of the House Judiciary Committee and the House Criminal

Justice Committee, is an excellent choice for the liaison group.

"Frank's long association with the legal profession and his background in criminal justice assures me he will greatly add to the understanding of the penal code revision during the coming legislative session," he said.

Mutscher said the penal code revision will be one of the most significant pieces of legislation considered by the 62nd Legislature.

"There has been no complete revision of the penal code since 1856 — just an accumulation of statutes," Mutscher said.

Other House members named to the liaison group are Representatives Charles Jungmichel of La Grange, Jack Blanton of Carrollton, Cletus (Cowboy) Davis of Houston and Jim Nugent of Kerrville.
